

# Accessories Layout & Font Options

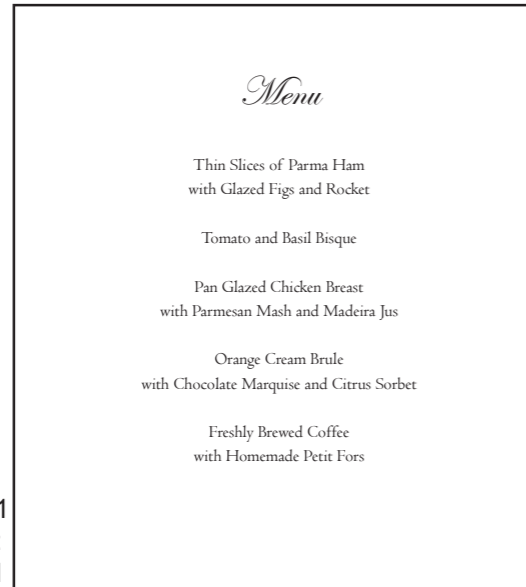

These are the options available for all the accessories that are printed. We have demonstrated the style of font and layout by using the Menu as an example but all of these can be applied to any of the designs including information cards, order of service cards etc.

There are three options here for layout and three options for font. The font options match with those shown for the invitations.

As with the invitation design options if there is something not exactly as you want we are happy to accommodate any ideas you have.

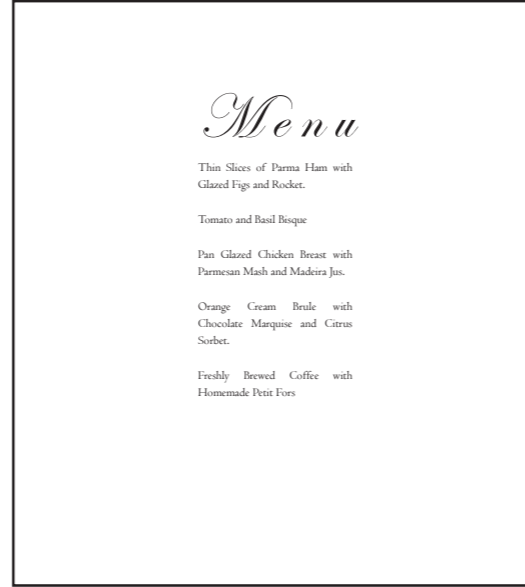

We would suggest all accessories be printed with a rich black ink however we can also match to the colour invitation you decide to go with.

Option A Centred Layout

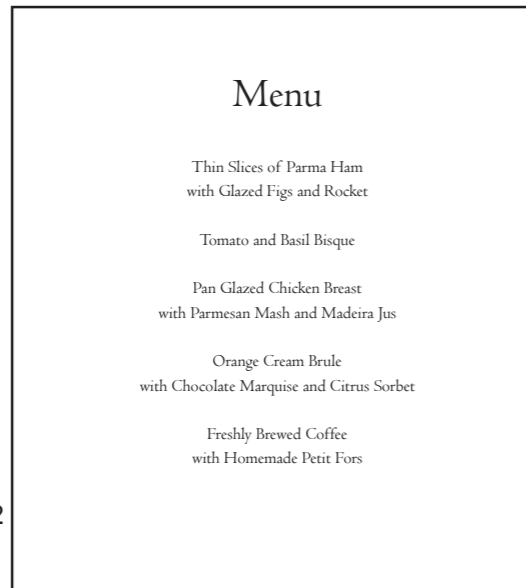

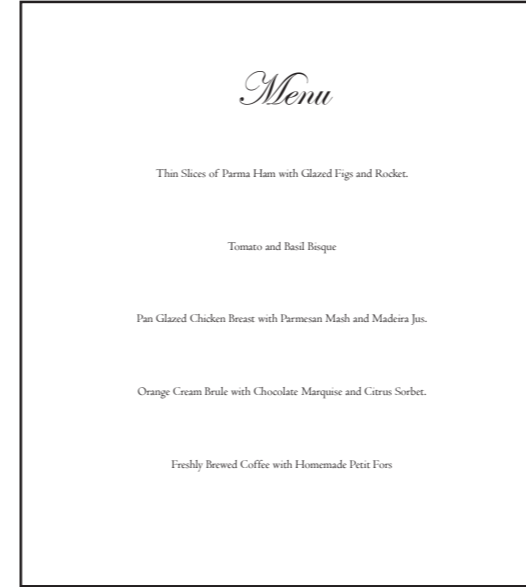

Option 1  
Mixed Font:  
Script & Traditional

Option B Compact & Justified Layout

Option C Spacious & Centred Layout

Option 2  
Single Font:  
Traditional

Option 3  
Single Font:  
Modern
